Important Notes regarding the Match

- **Timers will be used on all lanes** The timer format will consist of **60 seconds** of ‘preparation time’ once you address the first target (when your bum hits the bag, or you shoulder your rifle for standing shots or kneel down for kneeling shots, **plus 60 seconds for each target**. Thus a 2 target lane allows for 5 minutes.
- A **maximum 20 ft/lb limit** with the **pellet you are using** will be enforced in **Open and Hunter Divisions**
- A maximum **12 ft/lb limit** with the **pellet you are using** will be enforced in **WFTF Divisions**
- **Information on accommodations** will be emailed to each competitor after they register/commit to attend or upon request.

Tips for our American Friends

- **Airguns with a muzzle velocity over 500fps are considered Firearms in Canada, and need to be registered. BUT don’t worry, it’s a simple thing to do.**
- Go to this website and download form **CAFC 909** <http://www.rcmp-grc.gc.ca/cfp-pcaf/form-formulaire/num-nom/909-eng.htm>
- Fill out the form in triplicate to speed things up at the border, **but do not sign them. The Customs Officer will want to see you sign them.**
- If you have over three (3) guns, you will need a continuation form from the same website.
- There is lots of information on the RCMP site for visitors, but if you are only bringing air rifles, you should have no problems at the border.
