There will be 5 to 6 matches that apply for the Southern Grand Prix. The best 3 scores from the included matches will be applied to the shooters total and no divisions/classes will be crossed.

So if someone shoots in the PCP division at one match and the PISTON at another the scores will not be added together.

Additional Classes such as the Outlaw and Hunter Classes will not be added to the PCP or PISTON Division scores for totals.

All match scores are normalized to a standard 100 point match total just as the 2007 ROT and GOB matches were 120 shots and normalized to 100 points so no one would have an advantage by shooting higher point count matches.
