BCSA 10/13/2012 Field Target Match Report

A very chilly fall like day for a field target match! We arrived to do the final setup and found Art D. patiently waiting at the gate to give us a hand. The temperature upon arrival was right around 24 degrees! Great Day for a match! So cold in fact that the cameras on hand decided to act up throughout the day. I took some with the cell phone as backup and uploaded them in real time through Instagram. Very impressed how that worked out!

We had a very good turnout with 15 shooters coming out to enjoy the day and our last match of the 2012 season. Among the shooters, we had a few first timers to our range. Paul M. came down from the Rochester area and Todd B. and Rick I. were on hand from the Salem NY area. Joe B. took a break from all his other activities and made a return to the field target range.

We started our rifle match a few minutes later than normal due to the cold temperatures. After the sight in targets were pulled and the targets were worked a little to free the frost we were under way. The rifle match consisted of 10 lanes with 3 targets per lane for a total of 60 shots. The target order for the match again was 1 shot left target, 1 shot middle target, 1 shot right target then repeat. Plenty of Hunter shooters for this match, but a few shooters decided to change things up. Jerry L. switched things up and shot WFTF Piston with his TX, while Hans A. put back on the Leupold 35x, dropped the power on his Marauder Hybrid to under 12 ft-lbs and got off the bucket and back down on the ground to shoot Open PCP. The only cold line called was to replace a leader on one of the targets that was shot off. This little delay allowed the shooters to run out in the sun and warm up a little. The temperatures never really got above 45 degrees for the rifle match, and when the sun did come out the wind started to pick up which really didn't help with feeling any warmer.

Veronika and Hector ended the rifle match in a tie for second with scores of 30. SHOOTOFF!! I had them shoot at a 1 1/2" target at 52 yards. After a few back and forths Veronika came out victorious over the reigning National champion. Congrats Veronika!!

After the conclusion of the rifle match, we presented the awards, took a little break and prepared the targets for the pistol match. I had laid out the target positions for the pistol match and marked the locations with surveyors tape. Everybody pitched in and helped move the targets, pull the ones not being used and even gave the paddles a quick recoat.

For the pistol portion of the match, there were 10 lanes with 2 targets per lane. These too were shot in the left, right, left, right format. 13 shooters shot the pistol portion. 10 shooters shot hunter style while the 3 others shot the pistol portion offhand with their rifles for additional practice.

The pistol match went off without a hitch. After the match, the awards were presented along with a couple raffle prizes. Todd B. won the cash award provided by Dave L. and Tom W. won a Noteworthy swinger target. After the awards, everyone jumped in and lent a helping hand to tear everything down and pack it away. Lots of hands make for quick work and it is very much appreciated!

That concludes BCSA's matches for the 2012 season. Thanks to everyone that came out this year and we hope to see those of you that couldn't make it out this year real soon. There is still plenty of additional FT matches in the NE before the end of the year, including the NY State match at EFTCC in November. See you in 2013!!

Now on to the course layouts and results!
