

## **BCSA 6/8/2013 Field Target Match Report**

Well this season hasn't been off to a great start! First match of the year felt more like a mid- winter match, second match of the season was cancelled due to rain and this match was in jeopardy due to the remnants of tropical storm Andrea! Well, the storm moved well east of us and the match was a go! We had a little bit of drizzle during sight-in and another little shot around mid morning. The remainder of the time we just dealt with low to mid 60's and high humidity. There was a little bit of wind around but nothing major. It did make this a little interesting though for the lower power shooters.

Shooters started rolling in right around 8am, just in time for sight in. As people were getting their equipment and heading to the sight-in range, 1 shooter noticed that he didn't pack the right gun! Luckily he was able to use his backup for the match. Definitely not his first choice, but it worked! After sight-in, we headed over to our FT range. We had a brief announcement period and shooters meeting then the match began.

We had 14 shooters for the rifle match, so we used 2 man squads. Junior Nicolas G. made a returning trip to the range. Nic's scores for the match were based on 2 points for a knockdown, 1 point for a faceplate hit and 0 for a miss. He ended up with a 73/120. Very good shooting! NY Upstater's Joe B., George F. and Todd B. and SE PA residents Rich B. and Jim W. all made their first trip of the season to the range. Welcome back guys! We used 10 lanes with 3 targets per lane which made up a 60 shot match. One lane was a forced standing lane and another was a forced kneeling lane. The difficulty for the match was a 28.5T, but if I was to add the darkness factor in due to the overcast skies which created quite a few shadows, the rating was in reality a little higher. Unfortunately the wind machine was on the fritz which didn't add to the difficulty at all. The rifle portion went off without a hitch, no cold lines! As with our last match, the scores were pretty close to each other. Guess I need to up the number of reducers!

The rifle match, due to our set-up moved along rather quickly! When it was over, we took a short break, packed away our rifles and broke out our pistols! Boy there are a lot of 1720T's listed in the equipment section! After re-positioning a couple of the targets, the pistol match was underway. 2 rifle shooters opted not to shoot pistol, so we had 12 shooters for the match. 3 open pistol shooters, 1 off hand rifle shooter and the rest shooting hunter pistol. For the pistol match we used 10 lanes with 2 targets per lane for a 40 shot pistol match. The difficulty for the pistol match was around 17T. Only a couple of the targets could have received a darkness difficulty factor due to the shorter distances. Again, no cold lines! Nice when everything works as it's supposed to!

Thanks to everyone for coming out and especially for helping with the teardown and packing up! It is greatly appreciated! Hope you all had a great time! Our next match will be the AAFTA Grand Prix Event – The Cross Catskills Challenge on August 3<sup>rd</sup> and 4<sup>th</sup>! Hope to see you there!
