

# CASA April 10 Match Results

The CASA bunch got together for yet another beautiful day of shooting at the Prado Olympic shooting range. We have truly been blessed with fine weather for every match this year.

The course was a bit more challenging than usual today due to a greater number of long targets in the 50+ yard range.. That and some smallish kill zones made for some lower scores than usual. the match was a 44 shot match with two fairly difficult (at least i thought so) off hand targets.

Today we had a smallish turnout but we had all classes represented except no one shot pistol competitively.
