

Idaho Airgun Field Target Club 4/28/07

Our first match of the year. It may seem light to start to a lot of folks, but our last snow was lonely three weeks ago and last year our April match was snowed out. This year we had blue bird weather. George had a new rifle; a Theoben Evolution rated at 12 foot pounds. Piston guns continue to make up over ½ of our entries.

Open

Ron Gill	AA400ERB	Leapers 8X32	CPH	25 X31
Ashley Covey	Daystate X2	Simmons	Kodiak	13 X31

Piston

George Gardner	Theoben Evolution	Bushnell 4-16	CPL	22 31
Ron Roberts	HW 97			21 X31
Shortly Miller	Gamo 440	BSA 4X	JBS heavy	10X 31

After the match, we met and discussed the new Hunter Field Target rules from the AAFTA. A lot of the discussion centered on whether springiers would be competitive in this new division.

The members determined:

1. The AAFTA Hunter Field Target rules were adopted by the club members.
2. We will have at least one all "hunter" match in 2007.
3. At all other monthly matches, any one can request shoot "hunter".
4. We will offer a "Hunter" division at the Northern Rockies Friendship Match in Sept.

In other business the members reaffirmed the 20 foot pound muzzle energy limit. We discussed strategies to accommodate shooters who come with very powerful guns.

So, if you want to shoot from a bucket in Idaho. **Bring it on!**

Respectfully submitted,
Ron Gill
