

Invicta Match Report – Aug 23, 2014

The heat is back! You know it is August in the South, with temperatures forecast to be 98 degrees, with a "felt" temperature exceeding 100 degrees, most got there as early as possible, set up and hoped to shoot earlier than planned - it almost went to plan, but in the end we started right at 9am anyway.

I decided to shoot my new to me Daystate MK3 FTR, back in working order in no small way thanks to Mr. Robert Crocker, what a true gentleman of the sport, - while I previously have steered clear of the electronic rifles, I have to say, wow, what a shooter, using Brad's trajectory chart and just zeroing it at 25 yards, I managed to get a pretty decent score, in fact I know I blew at least five shots due to the "loose nut behind the trigger" - so I think I will be using this toy some more - and very soon!

The woods kept us cooler than being out in the blazing sun, but it was cooler because there was a lot of foliage - which in turn means it was dark, very dark....however I decided to cancel the lunch after, the heat would have made it simply no fun on the back deck - we will be back to normal if the weather allows next time!

Brad once again took top honors shooting World Class, he is really in the zone right now, look forward to seeing him shoot in Helfin, maybe we will have another Southern champion this year?

David Slade

Match Winner

54/60 Brad Troyer	BT 1000	Sightron 10-50	AA
-------------------	---------	----------------	----

World Class

54/60 Brad Troyer	BT 1000	Sightron 10-50	AA
