

FT Match Report Arlington Sportsmans Club 01/26/2019

Welcome all Texas shooters to the first match of the new year hosted by the Arlington Sportsmans Club in Mansfield. I was excited to kick off the new year at ASC, and the weather turned out great for our first match. Terry Vanpool and I setup the course of 29 targets (58 shots) on Friday using 10 of our available 15 lanes in our wooded 3D archery course. Saturday dawned cool and calm in the low 40's, with an expected high of 58 by the time the match ended, and very light winds. We only had 11 shooters show up, and we are glad to have each and every one of, but I always welcome more and always strive to setup a challenging course for them. The match this time was 58 shots with an average Troyer of 30.5, SD 6.46, Avg Dist 30.4 yds, and Avg KZ 1.12".

1 Elevated Tower Shots

We had a new shooter, Tommy Taylor who is a member of the ASC, come out and shoot his first air rifle match with us today. Terry Vanpool was generous enough to loan Tommy one of his rifles to shoot, and Tommy shot with me and Terry in the match. Tommy had a really good time, and has a new appreciation of this level of air rifle shooting as compared to plinking in his yard. I expect that Tommy will be back to shoot with us, and I encourage him to try a few more rifles before he purchases one. As a first-time shooter, Tommy shot the match for free; this is an offer from ASC open to all first-time shooters where we waive your entry fee. Come on out and try shooting, because we've removed almost all the excuses not to! We had a quick shooters safety meeting, squadded the guys together, and got started on time at 10:00am. If you read the report from our last match, you'll remember that we had some new WWII German tank targets on our battle of the bulge challenge. Well, the Germans are back in force this month with an additional lane of tanks, and another challenge to the shooters to "Take out those Tigers!"

Overall, the match ran exceptionally well with no cold lines, and only one malfunctioning target, when a pellet got stuck in the mechanism near the end of the match. I decided to just throw out this target and give everyone the points for it. Thanks to everyone who joined us at the match and also helped take down the course.

At the end of the match, we turned in our score cards and tallied the scores with 3 shooters posting identical scores of 49/58. Kevin Enizan topped Paul Kocurek in Hunter PCP by virtue of his stronger performance on the forced position lanes. Terry Vanpool also posted a 49/58 in Hunter Piston, taking the win. View the full list of all competitors' scores and equipment below. For all of you that couldn't make it out, you missed another great match in great weather with a bunch of great guys. If you'd like us to make any changes that would allow you or encourage you to attend, please let me know as recommendations are always welcome. We will have our next match the 4th Saturday in February (23rd), but be sure to attend the next Dallas Field Target Club match on February 9th at Elm Fork Shooting Range.

See you at the next match,
 Jeff Cloud
 Field Target Match Director
 Arlington Sportsman's Club

Class	Name	Rifle	Scope	Pellet	Score	Total Shots	% Hit	Notes
Hunter PCP	Kevin Enizan	AA S500	Optisan Viper	AA 10.3	49	58	84%	Kevin had better score on offhand lanes
