

## DIFTA Field Target Results for September 13, 2014

We had a fun time at the [DIFTA](#) match Saturday. There was just enough rain in the forecast that we ditched the 72-shot course in the woods for a 60-shot course on the covered sight-in range that the always-prepared Paolo had ready for us. Despite some decent rain showers, we remained mostly dry, and despite a good crowd with some four-shooter squads, we were finished by 2:30-ish.

With only a handful of WTF shooters (sorry, perhaps my 'F' key is malfunctioning), both Piston and PCP WTF'ers were merged into their respective Open divisions.

Shooting only his second FT match, Eric Roehrle improved from a 7/60 last month to a 37/60 this time! Extrapolating in a totally valid way, we should expect him to clean the course in October (and his bike should hit about Mach 1.2 next time at Bonneville).

And after a couple of dark-horse Offhand victories by Paolo, Mark Martin is back on top among those masochistic standing shooters.

Our next matches are the regular match on October 11, followed by the Fantasy Shoot on October 25. Not that it's ever okay to miss a DIFTA match, but you **must not** miss the Fantasy Shoot! See the [chapter calendar](#) for the full schedule.

See you next time!

Notes:

- Open+WFTF PCP merge
