Weather: Slight wind, warm temps, absolutely gorgeous day

With the up and coming world FT championships only a few weeks away and one of our regulars (previous US world champion Paul Cray) flying off to Northern Ireland to attend, the match was setup so that each lane had one target that would be similar to what he would find over seas.

Good Luck at the Worlds Paul.

We played with the target placements to try to get people to lose concentration and sure enough the course tricked quite a few people into getting a revolution out during the match. Some people more than once!

Hans and Ray were shooting the Crosman Discovery Prototypes which faired pretty well once again. An inexpensive PCP worth looking into.
