Weather:	Cold, real cold, Wind 0 mph gusting to 4? mph. A really bright beautiful day.... But cold.				

It was a "funtastic" shoot!

Challenging and rewarding at the same time. Fine balance achieved with no cold lanes called and no targets failing to operate properly.

Quite a feat in itself!

Art, it was a pleasure sharing the lanes with such a fine gentleman who's such a good spotter to boot!

We had a new shooter: Charles Senkus that took 1st class in WFTF (Ray never counts his score for the awards). And Greg Shirhall tried WFTF, dunno if he's gonna stay in the class or not, but I'm sure he's wondering as much as I am, LOL!

Larry Bowne shot pretty good with his ProSport, and there would have been a tie for WFTF if he had registered in that class. Since his ProSport IS WFTF legal, I really do not know why he didn't. WFTF Piston needs more shooters like Larry.

Veronika shot a personal best at 65% all offhand, was a fantastic result!

Jim Wilcox made good with his Steyr, getting the second highest hit count of the Match (First was Ray)

Tom Wade shot well, but is still having some issues with his ranging, I think, as I saw him hit exactly the same spot, outside the KZ, in a target. I may be wrong, though.

Richard Weinberg had just gotten his PCP and he slapped the first scope he came across, a 4X. He mounted it sideways. So Ray helped him get the scope back on track and sighted it in. He did not do bad AT ALL!

Hans was experimenting with a much higher scope mount and corresponding cheekpiece. Interesting architecture, but IMHO hard to hold steady.

Art Deuel shot well his re-stocked D48, proving that peep sights can be a lot of fun. He never missed a plate, and had they been actual critters, I am sure we would have had a potful.

I tested my differential plates and came out pretty satisfied with the results.

We stopped at the Chinese Buffet on the way out and, as usual, overate! LOL! Probably next time we'll make it to the new ribs place.

All in all a terrific shoot with sunny skies, good friends & challenging targets.

Un Abrazo!

Héctor Medina
