Eastern Suffolk Competitive Airgunners Association August 25, 2018 Match Report

We had our match Saturday and the weather was probably the best it has been on Long Island all summer not too hot and much less humid. I started the course setup on Thursday laying out locations and setting the targets out with the string I put plastic bags over them just in case of rain, then I arrived Saturday morning at 7:00AM to pull the strings and set the lane makers just as I finished Roel showed up and he helped set up the sight in range then the rest of the shooter started arriving, there were 9 shooters that joined us from New Jersey, Connecticut and New York. The match consisted of 10 lanes 3 targets per lane for a total of 60 shots. Once sight was finished we had a shooter meeting that Vasyl recorded and posted thanks for that, then off to the course there 2 cold lines one was a string and a target failed the results are as follows.

WFTF PCP

Tom H. - 51/60 – Steyr LG110FT, Sightron S111 10-50x60, H&N8.5

Mike H. - 46/60 – Steyr LG100, Stigmat, AA8.4
