

## GOOD OLE BOYS MATCH - JUNE 27, 2015

Rain was forecast at eighty percent, but that didn't put off thirteen shooters from making it out to Roz's Hollow, and despite of the dark clouds and the brief rainfall just after the shooters meeting, we all trudged out to the course, and completed it with plenty of time before the downpour finally happened after we had lunch.

Always worth the trip, Roz even had a backup plan of shooting around the pavilion if the clouds decided to release the rain early, so if you still haven't made it there yet, you are only hurting yourself!

Harold Rushton managed to come out for a rare but welcome appearance, his life these days is so hectic to say the least, but it sounds like next year he can make it out a little more like the old days.

Top score once again was Charles, after going through many different rifles and scopes, it definitely looks like his equipment combination has reached close to perfection, however Brad was just one point behind him in World Class, as was Danny Ayres in PCP Class, so in reality it was a very close match in all classes!
