

INVICTA FTC Match – March 25, 2017

The first match of the year at Invicta was a challenge, weather forecast severe thunderstorms hitting us at noon, so as folks showed up, we started them shooting, thereby hoping to be spared getting soaked or struck by lightning.

We did not get wet, but the winds were pretty bad before anyone even started shooting, we started at 12 - 18 mph winds and it was predicted to hit 50 mph a little after noon, so us WFTF class shooters were aiming off the target for a bunch of shots!

Harold decided to bring out his Air Arms FTP 900 that he has just modified, along with a scope he had just put the scope on, using new pellets, something I would never do myself, LOL. He did very well with it, even his last lane, last target, were, just as he shot, the end plug on his barrel sleeve shot out, he hit the kill area with the pellet and it went down despite all the action happening at the barrel!!

So needless to say there was no big scores today, but despite this we did have a top tied score, one WFTF class and one Hunter class shooter, well the only guy shooting hunter!

The good news is everyone finished the course safe and dry, and we headed to Hickory House to enjoy the buffet, thanks to everyone that made it out, we had fun!

David Slade

World Class

46/60 Harold Rushton	Air Arms FTP 900	Sightron 10-50	H&N Sniper 8.5
45/60 David Slade Steyr	LG 100 FT	Bushnell 8-32	JSB Exact 8.44
