

Invicta May Match 2016

We are so lucky we got to shoot the Red course at Roz's hollow one last time, with better weather than the previous week too! While it was still breezy, it was much more relaxed and everyone had great fun, I think this might be the best course Brad has designed so far in his illustrious FT career, if you missed it, you really missed it!

Charles Garvey once again takes top score, can't wait to see how he does when he moves to Open Class, as he has mentioned several times - snapping at his heels is long lost Rod Bradley, almost a stranger to these parts we have seen him so little the last couple of years due to working nights, but with his new 9 to 5 job - the first since 1996 he tells me, we hope to see him more!

Cliff Smith also shattered his personal best with a fifty! Way to go Cliff, maybe put some ice on it, LOL

On a sad note, due to the devastation left by the logging in Minor Hill, I cannot see a way to make the range safe to use, it literally looks like a tornado went through it, unless someone has heavy machinery to lend us for free, I cannot see how we could shoot there anymore, if that changes somehow I will let you know.

The good news is I have a small piece of property about a mile from the range and we will shoot there until I find a better range, it is quite reminiscent of the range Jeff Avedutti had near Murfreesboro, but it will let us shoot with ease, if a little more walking uphill, but I can store the targets on site securely.
