

Port Colborne Field Target Club Results for October 13, 2012

On our final regular outdoor FT match of the season, we made out fairly well in the weather department. It certainly was not real warm at about 50°F, but the rain held off until we were finished pulling up the targets and getting ready to head out for supper. For a match in October, I think we did well. I forgot to mark down all the ranges, so the Troyer difficulty was not calculated for this one, but most estimated it to be in the mid 30s area.

We did have a first with the piston hunter class being the largest group of shooters. Five spring gun shooters were vying for the three medals. Slav had some issues with his rig and the rest came in fairly close together, Like Larry edged Tony out by only three shots to take third. Marshall, shooting his Diana for the first time did well to capture second and Greg, whose scores are getting higher each match, took the top spot in the class.

With only two pcp hunters, Gillian was moved from junior to the adult hunter division where she did quite well. Chris had a very good day and won the pcp hunter class.

All of the open pcp scores were high, but it seems like to win this class you have to be close to perfect. Len took third place by just two points over Dennis and Magdy had a very strong score to place second. Only dropping one shot on the day, Don took top honours by one shot.

We also had three WFTF piston shooters attend to give an even split between piston and pcp competitors at the match. George did a fair amount of work on his gun and decided to give it a first try in the WFTF piston class. "Back to the drawing board," is what I heard from George. Mike is getting more use to his HW and his scores continue to rise, resulting in a second place finish. Ted had a very good day on a fairly challenging course and was rewarded with the first place medal.

There were only two shooters in the WFTF pcp class and at least this time, the young shooter certainly schooled the old guy. Over the past few seasons, Salma's scores have continued to rise and it only seemed like a matter of time before she was rewarded. She took the top spot handily from yours truly and I am sure it will not be the last time.

With help from Mike and Ted, tear down went quickly and we were able to beat the rain and our hunger by making it to the restaurant earlier than usual. Thanks for the help. We enjoyed a good meal, lots of laughs and as always, great conversation.

The last event of the 2013 outdoor season at the Port Club will be the Fifth Annual Elmer Fudd Hunter Match to be held on November 3rd. This has typically been our best-attended event of the season. The chili, Italian bread and hot drinks seem like a very natural thing after a fall day of shooting. I hope many will make the trip to be a part of this fun event.
