

Here are the scores from the field target competition held by the S.M.G.C. Pneumatic's on Saturday August 15th 2015.

We only had 3 shooters turn in score cards, but we had a lot of new visitors and on-lookers who were asking a lot of questions about what equipment to purchase for this sport. In addition we had two new people sign up for full membership in the club so that made the day a total success!

We normally have at least 5 shooters turn in score cards and I will be pushing this and recording all matches with you between now and the end of the year. This was the first event where we ran a timed event with timers on each lane. We allowed 7 minutes total per lane and each lane had 3 targets at 2 shots per target time 10 lanes. Lane 4 was a kneeling a kneeling lane and lane 9 as a standing lane.

Thank you,

Chris Martin
Director of Air Gun Activities
S.M.G.C. Pneumatics
