

Sonoran Desert Grand Prix - April 13th-14th, 2019

The weather was fantastic, and the match went off smoothly. Thanks to the crew at Phoenix Airgun Club for hosting this getaway from the cold!

The wind was difficult....mostly switching from the 10:00 to 2:00 position on the course with false reads at the more open areas of the shooting box. Temps started out in the high 50s and quickly progressed to the 80s. Both courses were about 30T without wind... but the wind was always there. The yellow had easier offhand shots and more difficult kneelers... while the red had tougher standers and easier kneelers. Some of reduced kzs in the low 40s. Wind was a little heavier on Sunday with times of gusting that were probably near 10mph or better. It was a lot of fun and a great time of year to enjoy the desert in AZ.
