

**On Saturday 8/23/2014 THAGC** held its first match at a new location on Will Piatt's property off the Blue Ridge Parkway in western NC.

Will and his wife own 65 acres near Saddle Mountain and graciously invited everyone to come and shoot. He set up a 60 shot course over fifteen lanes. (Will actually prepared 23 lanes but only set targets on 15)

Terrain features included 9 lanes in woods horizontal, with flat, up and down lanes and 6 lanes in open fields. Will set the open field shots up over three different rolling fields so that the direction of the shots was different in each and the hold-off with the variable winds were challenging.

The day of shooting was capped off by an exciting shoot off between Will and Chris for first place in Hunter. We welcomed two new shooters to THAGC today, Larry who was shooting his first match ever, and John who last competed in field target in the early 90's.

Course 60 shots/15 lanes
