

## WWCCA April 20, 2008 Match Results

We had our first Field target match of this 2008 season and although we had a small turn out we were blessed with beautiful weather. The day started out at about 56 degrees at 8:30 AM when I arrived at club with no wind and the temperature rose to 68 and the wind also picked up to 10 to 15 mph by the time we completed the course of fire. The sun also showed its face throughout the day, and for Michigan in mid April we had a glorious day. My daughter Angela and I set up the 60 shot course on Saturday and we enjoyed the same great weather we had on Sunday. The course was set up on the Air Gun range because the boy scouts were having a camp out in the club rendezvous area which is where our walkthrough range is located, not to mention the dead ash trees really need to be cleaned up and it is still quite wet in the woods. We had Jerry Smith and his grandson Charlie Smith-Firman join us at our March All Events match and it looks like we may have some more regulars joining our ranks. Jerry did very well in his first field target match; I believe that my score was 8 or 9 targets in my first match.

It was good to see everyone again after a long and snowy winter. Thanks to Dan Delproposito for coming out and over seeing the match for with out Dan's presence we could not have held the match. And I want to thank all the participants for their help taking down and putting the targets away after the match. We hope to see you at our next scheduled field target match on Sunday May 18<sup>th</sup>.
