

# WWCCA August 17, 2008 Match Report

We had wonderful weather for our field target match this month. It was a bit cool when we arrived at the club at 8 am though it warmed up to the upper 80's when we completed the match around 2:00 pm. Sunshine ruled the day and it made finding the targets very difficult, especially in the dark lanes, resulting in lots of missed targets.

I have been taking NRA instructors' classes for the past two weeks at the club and was just a little worried about how I was going to get the prep work completed. Dan Delproposto was a great help to me this event as he had cut the shooting lanes, painted the targets and had everything ready for us on Sunday morning. I must complement him on an excellent job in target selection and placement. Rick Stewart, Fritz Sanders and Karen set up the practice range while Dan and I set up the field targets on the walk through range. Although we started the match a little later than usual everything worked out great. Our usual 60 shot event was very challenging this month and hopefully it will help Karen and I shoot better at The Nationals next month. Special thanks to Dan for all his hard work and to all the participants for their help in the set-up and clean up after the event.
